SUBJECT:

Mission C178C, Evaluation of Proposed

REFERENCE:

- This memorandum is a final review and analysis of Route 1062 in support of Mission C178C to be flown over water along the southwest coast of China from Hainan Island to Shantou opposite Taiwan. This review is in compliance with this Office's responsibilities as set forth in the reference.
- Analysis indicates that if the route is flown as planned, there is no liklihood of a SAM reaction to the mission. As there are no known MiG-21's on or near the flight route, no aircraft reactions are expected, however, MiG-19's will probably fly defensive patrols along the flight route.
